Subject: Re: Presentation for today

Got it - looks good. like the slides - just sent to Carlos to distribute.

want to add solar, biogas, lpg, and liquid fuels too... for later use - perhaps at the IWA

Subject: Presentation for today

John,

Attached is a revised presentation to use for our EPA call today - updated with Slides 30-35 from Christian.

I think we should use this presentation (or a revised version of it) for the webinar tonight (Tami and Morgan) - to be consistent with the information that was sent out by ISO.

Jim

Subject: Re: Fw: ORD Cookstove Research Program (call in no.: 866-299-3188; 919-541-1156#) Room: E201 (January Monthly Report - Revised)

Carlos,

This is a very good idea. Please know that Jim and I need to be on another conference call at 4:00 with the standards development working group - so we will have to do the presentation and discussion in 30 minutes -- which I think that we can do.

We will want to send the presentation out in advance - is there someone in your office who we can send it to who will disseminate it to the group? Or what is the best way to disseminate the presentation?

Thanks,

John

John

What about using the meeting today to have you and Jim presenting to all of us the recent presentation you gave on standards?
